+LIVE DEMO

From 55 agency websites to a screened, source-dated state list.

01

NOV 8 RUN

COLLECT

Crawls the LIHTC agency sites for all 50 states, DC, PR, USVI, Chicago and NYC, and archives every plan with its retrieval date.

02

NOV 8 RUN

LOCATE

Finds the pages holding fee, credit-cap, deadline and eligibility rules, and quotes them word for word for a reviewer to confirm.

03

LIVE

SCREEN & RANK

Runs each state through 5 pass/fail checks, then scores 7 weighted criteria. Unknown never counts as a pass.

Steps 1–2: results from our first full run · Step 3: live in the browser

+WHAT TO WATCH FOR

Three things to look for as we click through

1

Unknown never counts as a pass

Nothing is ranked yet: a missing fact holds a state back.

2

Indiana 4% clears 4 of 5 checks

101+ units and a 12% fee pass. Only DL3's sponsor path is open.

3

Every fact has a date

Sources more than 90 days old block a recommendation.

SEE IT RANK We'll switch to made-up sample data to show scores and ties.

+EARLY RESULTS

55

Agency sites crawled

All 50 states, DC, PR, USVI, Chicago and NYC. First full run Nov 8.

3 of 50

Researched in depth

Indiana, Michigan and Ohio, 9% and 4% each.

0

Pass all 5 checks yet

Every state is waiting on a confirmed DL3 sponsor path.

WHERE IT STRUGGLED

Agency sites push back

Bot checks, broken certificates and moved sites stalled the first run. Now handled.

Fee rules hide conditions

Indiana's 4% fee clears 10% only if eligible basis tops 66.7% of cost.

Award history is thin

No 4% award data yet for Michigan or Ohio, so project size can't be confirmed.
